

Cusper Surface Multi Drug Test

A ground-breaking development in the detection and screening of pharmaceuticals.

- Easy to use and completely safe.
- 99% Correct, instantaneous findings even when the narcotic is combined with other substances.
- Smart Tip Probe: Protected from contamination, the adhesive tip picks up microparticles.
- Safe-Squeeze: Reaction chemicals are safely kept inside a hard plastic shell.
- The only kit in the entire world without a three-year expiration date or storage cap.
